

FRAN GREEN

I DESIGN FOR SOPHISTICATED, CONFIDENT WOMEN WHO KNOW THEIR STYLE.

Fran Green's exquisite custom jewelry has fans in high places – everywhere from the well-heeled doyennes of St. Armands Circle in Sarasota, FL to the world's stages.

Just ask internationally acclaimed Canadian soprano, Measha Brueggergosman.

"I'm all about glitter that catches the eye and attention," says Measha. "Fran Green has a gift for creating jewelry that does both."

Designed to appeal to women with sophisticated tastes and an appreciation of unique designs, Fran draws

her inspiration from nature, both in Canada and her Florida winter residence.

"Creating beauty and joy, connecting and giving are my motivators," says Fran, who also supports charities that help women in challenging circumstances and children with special needs.

Expanding to other cities in Canada and the US are in progress. Fran is determined to maintain balance between her passion for jewelry and her personal life. So far, it's working!
